Summary Report

Name of the Program:- Java Programming Master Class for Software Development

List of students enrolled:- 1

Duration of the Course:- 80.5 Hours(30 May 2020 to 1 June 2020)

Attendance of Students:-

Sr. No	Name of the Student	Year
1	Ksheetija Jadhav	2019-2020

Curriculum:

- Statements, Whitespace and Indentation (Code Organization)
- Code Blocks And The If Then Else Control Statements
- if then else Recap
- Methods In Java
- Method Challenge - Final Code Changes
- DiffMerge Tool Introduction
- Install DiffMerge
- Using DiffMerge
- Coding Exercises

Assessment Procedure:-

1. Students who are enrolled for Web Development course are undergone for exam.
2. Exam was taken by udeemy.
3. Each section has 25 marks. Out of 100 marks the exam was taken.

Outcomes:

- After completion of this course students are able to understand core concepts of Java Programming.
- How to connect frontend to backend.
- Students are able to understand the process of software development.

Value Addition Program

Sem I 2019-20

Date/Duration:	1 st August 2019 to 30 th September 2019 (40 Hrs)
Venue:	CRT Lab, Computer Department, SIT, Lonavala
Time:	After College Hours (2-3 Hours) Morning 07 to 08AM.
Staff Co-ordinators:	Salim Shaikh (COMP Departmental VAP Coordinator)
Event Conducted under:	Department of Computer Engineering, SIT, Lonavala.
Activity Type:	Value addition program
Target Group:	All Students of Computer and IT Department
Purpose:	To Improve Programming skills, For the Placement in software industries
Total strength:	16 students (SE)
Conducted by:	Global Infotech, Lonavala
Resource person:	Prof. Yogesh Khandelwal

Brief Summary about Activity:

Students enrolled for C, C++ and Core Java Programming and undergone VAP. Attended sessions as per schedule and attempted test and assignments given by expert. They took active part in the course and updated their knowledge with the intention of better opportunities in placement process. At the end their performance is evaluated on the predefined criteria and awarded with certification. All students are also awarded with University of Pune certificate under the tie up of Global Infotech Lonavala and UOP.

C++ Programming:

- C++ is a general-purpose programming language. It has imperative, object-oriented and generic programming features, while also providing facilities for low-level memory manipulation.

- C++ has also been found useful in many other contexts, with key strengths being software infrastructure and resource-constrained applications, including desktop applications, servers (e.g. e-commerce, web search or SQL servers), and performance-critical applications (e.g. telephone switches or space probes).

Outcome:

- Students understood the concepts of C, C++, Programming thoroughly and capable of doing programming on their own.
- All the participants are awarded with certification.
- Global Infotech is having tie up with University of Pune. The resource person conducted presentations of the students, evaluated, conducted test of all the participants.

Curriculum:-

Parametric solid modelling	engineering drawing and drafting
surface modelling	product and manufacturing information
reverse engineering	knowledge based engineering
Styling and computer aided industrial design	reuse
sheet metal design	assembly modelling and real time rendering

Assessment Procedure:-

- Students enrolled CATIA V5 COURSE VAP.
- Attended sessions as per schedule and attempted test and assignments given by expert.
- They took active part in the course and updated their knowledge with the intention of better opportunities in placement process.
- At the end their performance is evaluated on the predefined criteria and awarded with certification.

Outcomes:-

- Students learned advanced solutions for conceptual design, 3D modelling, and documentation.
- Students learned to do product design, industrial design and styling (optimize form, fit, function and user experience), streamline 2D design, drafting, documentation with powerful tools for layout, drawing, and 3D annotation You will do assembly design, sheet metal design, and template based design.
- Students learned to create realistic renderings of the CAD model and allowing you to create textures for materials from the scratch, modified from imported digital images or selected from the included library.

Additional Information:-

The institute has signed Memorandum of Understanding(MOU) with Matriix Designed and Training Institute Pune.

Summary Report

Summary Report

Name of the Program:- Block-chain and Web development

List of students enrolled:- 21

Duration of the Course:- 30 Hours (16-21 September 2019)

Name of the Speaker:- Mr. Mayur Raut

Name of Faculty Coordinator:- Mr. Mayur Raut

Curriculum:

The Workshop was conducted to guide the students of Engineering students for upcoming new technologies. The workshop also gave the guideline for the job opportunities in different domains. The workshop demonstrated the blockchain ,robotics,web development etc. Handson was also conducted during the session for better insights. Overall the workshop was appreciated by the students and the staff present.

Assessment Procedure:-

1. Exam was taken in two sections- assignment and mcq exam.
2. Exam was taken by online mode. Final score is the certification score.
3. Passed Students are awarded with Certificate.

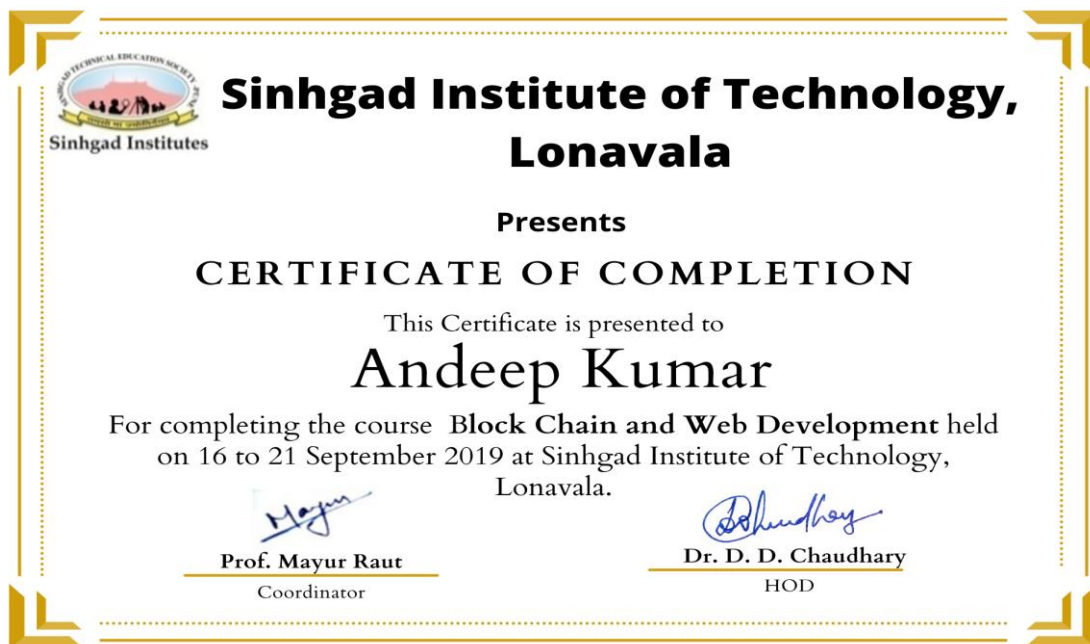

Outcomes:

- Students are able to understand core concepts of web development.
- Students are able to understand importance of block chain.
