Subject: STM Journals: Invitation to join as Series Editor for E-books
To: DNYANESHWAR MANTRI <dsmantri.sit@sinhgad.edu>

Dear Editor,
Greetings from STM Journals!

With regard to your expertise and being an honorable Editorial Board member in the Journal of Mobile Computing, Communications & Mobile Networks, we would like to inform you with the latest developments being carried out at STM Journals.

Since last one decade STM Journals has been into publishing scientific content. **STM Journals is now launching its new venture in publishing e –books in various domains.** We would like to propose to you and invite you in this regard to collaborate **and join us as the Series Editor for the book in the subject area of Computer Science.**

This will be a mutually rewarding collaboration and we would be providing you with a royalty (% will be based on sale). This would provide a good potential to increase the Research Database.

It is a great privilege to have you associated with the **STM Journals** Editorial board and we anticipate your active participation and valuable knowledge inputs in the new initiative by us. The platform will help in expanding and facilitating the advancement of scientific literature and reaching out to a large audience.

Please revert us if you would be interested to join as a Series Editor of our eBook in the subject domain of Computer Science.

Looking forward for a long, productive and purposeful association.

--
Thanking you with best regards

Hello Prof. Chaudhari Sir,

Greeting of the day.

Subject: - Awareness and Career Campaign on Cyber Security

The digital world has fundamentally changed and continues to change the way of life for all human beings. Hacking of all sorts is growing exponentially, coming from a variety of sources such as criminals, spying agencies, competitors and so on and for different reasons: financial gain, political influence, intellectual property, trade secrets, etc.

Every organization/institution should be responsible for promoting and ensuring Cyber Security awareness to their students through education. The ability to protect information systems from impairment or even theft is essential to success. Implementing effective security measures will not only offer liability protection; it will also increase efficiency and productivity.

DSCI (Data Security Council of India) is very aware of the urgent need to fill the shortfall in Information/cyber security personnel within India as well as overseas. They have also predicted that this requirement of Cyber Security experts is going to increase in the future. The objective is to enhance cyber security skills and develop standards for talent development within India which can cater to the cyber security manpower need in India and overseas.

This seminar will be an extensive of cyber security awareness, career, knowledge and actions among college students. The main objective of this seminar is to discuss cyber security awareness of people and how they protect themselves against cyber-attacks, show current/future trends and discuss possible career solutions.

We will cover the following topics:

- Present cyber security crisis
- Cyber security and value driven leadership
- People and policy security risk
- Cyber security opportunities and challenges
- Cyber security ecosystem and its future
- Career in national cyber security task force
- SSCNASSCOM career growth in Indian market

Please let us know the convenient date for the same.

Warm Regards,
