3.3.3 Number of books and chapters in edited volumes/books published and papers published in national/international conference proceedings per teacher during last five years

Compliance of DVV Findings

Compliance 1:

Cover page, content page, first page and last page of the book/publication showing title, author name along with the content page, ISBN number and year of publication of all the books listed in all the 5 years, attested by the principal. (Other than journals/research papers in edited volumes of Proceedings listed in 3.3.2)

A.Y. 2016-17

Sr. No.	Title of the book/chapters published	Name of the teacher	ISBN/ISSN number of the proceeding	Year of publication
1.	Human Action Recognition	Dr. T. J. Parvat	978-3-659-92079-0	2016
2.	Frequency-Dependent Lumped Model Of Dual Band MIMO Antenna	Mr. Vilas V. Mapare	NA	2016
3.	Numerical Modeling Of Twin Band MIMO Antenna	Mr. Vilas V. Mapare	NA	2016
4.	Heat transfer for Savitribai Phule Pune University	Mr. S.V.Karankoti	978-93-332-0300-5	2016
5.	Problem Solving and Object Oriented Programming	Ms. P. P. Ahire	N3550	2016
6.	Text Book on Computer Graphics	Ms. P. P. Ahire	NA	2016

3 New from \$40.80

Human action recognition, Important area of computer vision research, an automated detection of events performed by humans from video data. An important task of low level video analysis is to extract useful information from a video sequence. This book describes a novel feature for capturing information in a spatio-temporal volume based on regularity flow, what it is, how it works, and the benefits of using it for action recognition. The regularity flow describes the direction of least intensity change within a spatio-temporal volume. Our feature consists of weighted histograms of the computed regularity flow around selected
