ACADEMIC YEAR 2021-22 SEM I

Vision and Mission of Institute

VISION

उत्तमपुरुषान् उत्तमाभियंतृन् निर्मातुं कटीबध्दाः वयम् ।

We are committed to produce not only good engineers but good human beings, also.

MISSION

Holistic development of students and teachers is what we believe in and work for. We strive to achieve this by imbibing a unique value system, transparent work culture, excellent academic and physical environment conducive to learning, creativity & technology transfer. Our mandate is to generate, preserve and share knowledge for developing a vibrant Society.

Vision and Mission of Department

VISION

The department of IT visualizes teaching learning methodologies to create groomed, technically competent, skilled intellectual IT professionals to achieve the challenges of dynamic needs of local as well global industry and professional community.

MISSION

- The department offers students and faculty with an open environment that fosters professional and personal growth.
- Acquiring knowledge of Information Technology and learning its application through innovative practices and possess high morale, ethics, lifelong learning skills, concern for the society and environment.

Short Term Goals

- The department offers students and faculty with an open environment that fosters professional and personal growth.
- To strengthen the institute-industry relationship for mutual benefits.
- To initiate technical development programs and certification examinations for skills development of students.
- To establish project-based learning model for real life learning to improve academic performance of students and maintain high placement record

Long Term Goals

- To provide curriculum to meet the requirements of industries.
- To strengthen patent-based research and product development efforts for supporting indigenous market.
- To foster research in the field of Information Technology for the benefits of society.
- To create better entrepreneurs in the IT Sector.

Program Educational Objectives: PEOs

1. To provide strong fundamental concepts in mathematics, science, engineering and Technology to address technological challenges.
2. To provide knowledge and skills in the field of Computer Science and Information Technology for analyzing, designing and implementing complex engineering problems of any domain with innovative approaches.
3. Possess an attitude and aptitude for research, entrepreneurship and higher studies in the field of Computer Science and Information Technology.
4. Shall Have commitment to ethical practices, societal contributions through communities and lifelong learning.
5. Possess better communication, presentation, time management and teamwork skills leading to responsible & competent professionals and will be able to address challenges in the field of IT at global level.

Program outcomes (PO's)

Students will be able to:

i) Engineering Knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

ii) Problem Analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences.

iii) Design/Development of Solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

iv) Conduct Investigations of Complex Problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions for complex problems:

- that cannot be solved by straightforward application of knowledge, theories and techniques applicable to the engineering discipline as against problems given at the end of chapters in a typical text book that can be solved using simple engineering theories and techniques;
- that may not have a unique solution. For example, a design problem can be solved in many ways and lead to multiple possible solutions;
- that require consideration of appropriate constraints / requirements not explicitly given in the problem statement such as cost, power requirement, durability, product life, etc.;

- which need to be defined (modelled) within appropriate mathematical framework; and
- that often require use of modern computational concepts and tools, for example, in the design of an antenna or a DSP filter.

v) Modern Tool Usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.

vi) The Engineer and Society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

vii) Environment and Sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

viii) Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

ix) Individual and Team Work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

x) Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

xi) Project Management and Finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

xii) Life-long Learning: Recognize the need for, and have the preparation and ability to engage in independent and lifelong learning in the broadest context of technological change.

Program Specific Outcomes

1. An ability to apply diverse Information Technology concepts to solve complex business and computational problems through the analysis, design, development and management of information processing systems and applications in interdisciplinary domains.
2. Acquire technical, professional and social skills through the use of latest technology to be competent enough for professional responsibilities

TITLE: STP -1: STUDENT TRANING PROGRAMME FOR ACADEMIC YEAR 2021-22

Date :18 Aug 2021 to 27 Oct 2021

Day : Wednesday

Venue : online mode (Microsoft teams)

Time : 9.00am-10.30am

Staff Coordinator : **Prof.Anuradha P Kulkarni**

Event Conducted Under: Department of **Information Technology**

Activity Type :Student Training Program

Target Group :All SE Students of Information Technology Department

Brief about the event:

STP-1 stands for the "**Student Training Program**" and this module is to nurture the reading, writing, speaking and listening skills of the students. STP-1 consists of 10 different modules such as- Personal and Career Goal Setting, SWOT Analysis, Resume Writing, Report Writing, Letter Application Writing, Listening Skill, Presentation Skill, Public Speaking, Behavior Skill, Group Discussion

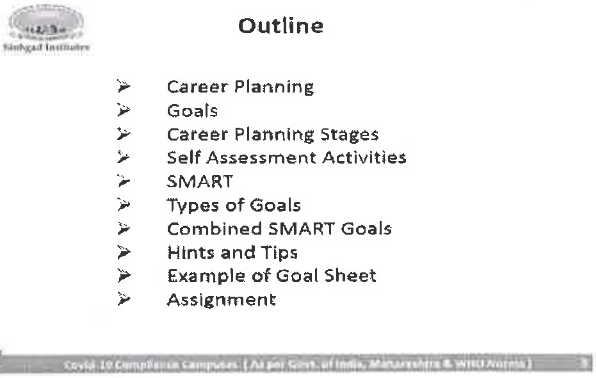
Career Goal Setting

Sinhgad Institutes

Student Training Program - 1 (STP - 1)

Module - 1

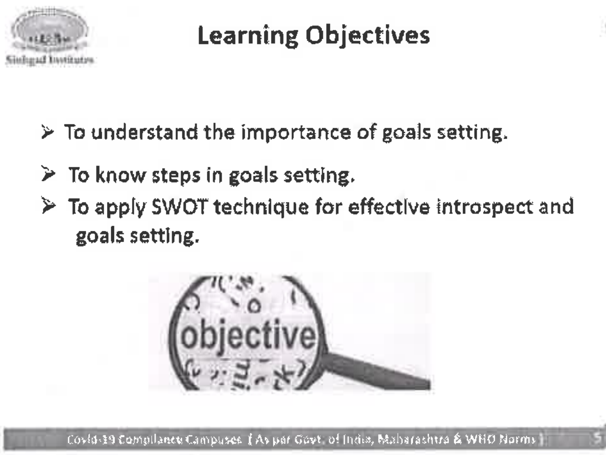
Covid-19 Compliance Campuses (As per Govt. of India, Maharashtra & WHO Norms) 1



Outline

- Career Planning
- Goals
- Career Planning Stages
- Self Assessment Activities
- SMART
- Types of Goals
- Combined SMART Goals
- Hints and Tips
- Example of Goal Sheet
- Assignment

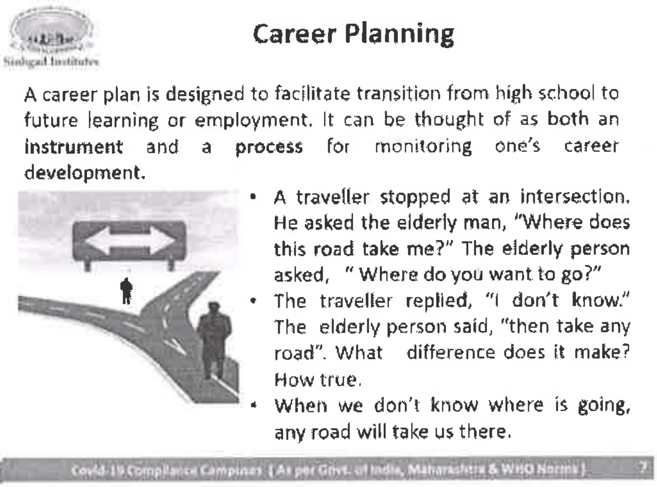
Covid-19 Compliance Campuses (As per Govt. of India, Maharashtra & WHO Norms) 3



Learning Objectives

- To understand the importance of goals setting.
- To know steps in goals setting.
- To apply SWOT technique for effective introspect and goals setting.

Covid-19 Compliance Campuses (As per Govt. of India, Maharashtra & WHO Norms) 5

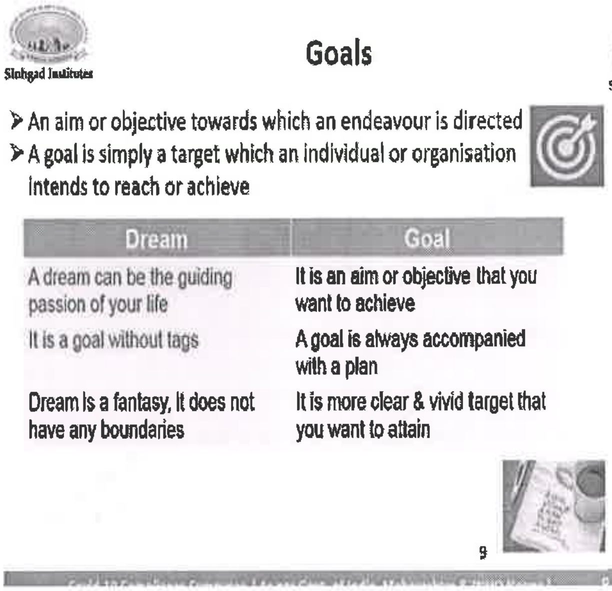


Career Planning

A career plan is designed to facilitate transition from high school to future learning or employment. It can be thought of as both an **instrument** and a **process** for monitoring one's career development.

- A traveller stopped at an intersection. He asked the elderly man, "Where does this road take me?" The elderly person asked, " Where do you want to go?"
- The traveller replied, "I don't know." The elderly person said, "then take any road". What difference does it make? How true.
- When we don't know where is going, any road will take us there.

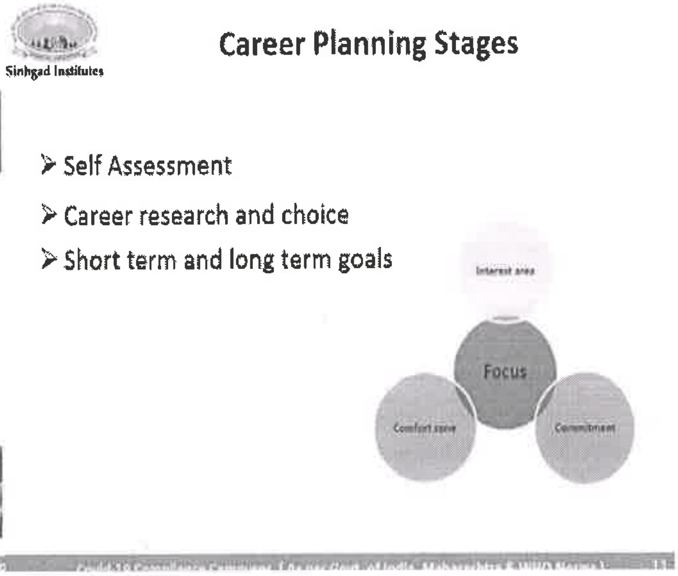
Covid-19 Compliance Campuses (As per Govt. of India, Maharashtra & WHO Norms) 7



Goals

- An aim or objective towards which an endeavour is directed
- A goal is simply a target which an individual or organisation intends to reach or achieve

Dream	Goal
A dream can be the guiding passion of your life	It is an aim or objective that you want to achieve
It is a goal without tags	A goal is always accompanied with a plan
Dream is a fantasy, It does not have any boundaries	It is more clear & vivid target that you want to attain



Career Planning Stages

- Self Assessment
- Career research and choice
- Short term and long term goals

Interest area
Focus
Comfort zone
Commitment

Student Training Program-I

EVENT NO:-	1
Title:	**Student Training Program I (STP- I)**
Date:	From 21-08-2021 to 30-10-2021 weekly activity.
Day:	Every Saturday
Venue:	Microsoft Teams (Online mode)
Time:	9:00 pm to 10:30am
Staff Co-coordinator:	Prof. V.G. Rajeshwarkar
Student coordinators	--
Event Conducted Under:	**Student Training Program**
Activity Type:	Co-curricular
Target Group:	SE (E&TC) students.
Outcome of Program	The outcome of this STP is to raise fundamental understanding of the importance of soft skills in professional and interpersonal communications, as well as to support overall personality development.

Brief Summary about Activity: This activity was the part of Student training program. It is preparation towards professional and interpersonal communication of the students. This program was divided into 10 modules and five faculties (Prof.V.G.Rajeshwarkar, Dr.S.B.Gholap, Prof.P.R.Dike, Dr.R.V.Babar and Prof.P.A.Kamble) were involved in this activity to execute total 10 sessions for S.E. (E&TC). All sessions were interactive and students were also responsive.

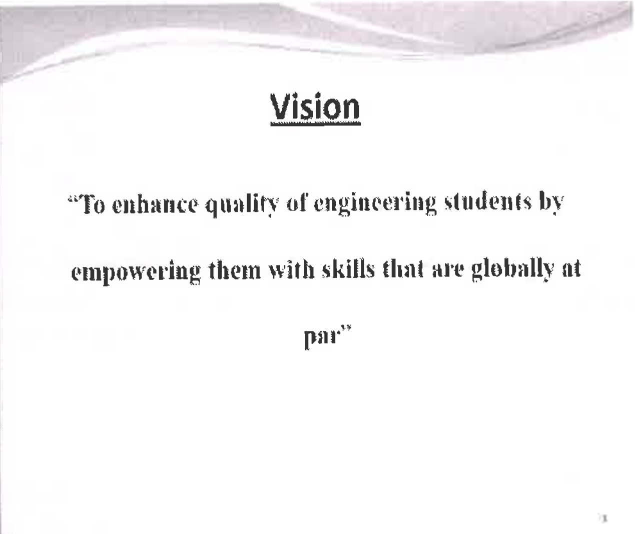
Student Training Program

for

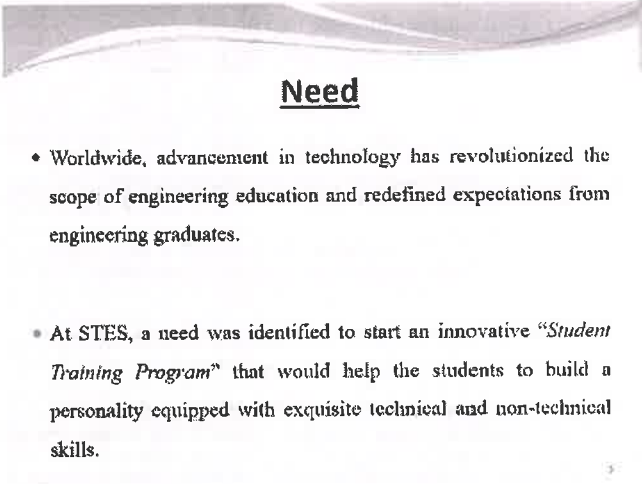
Students of Engineering Institutions

Under the Aegis of STES



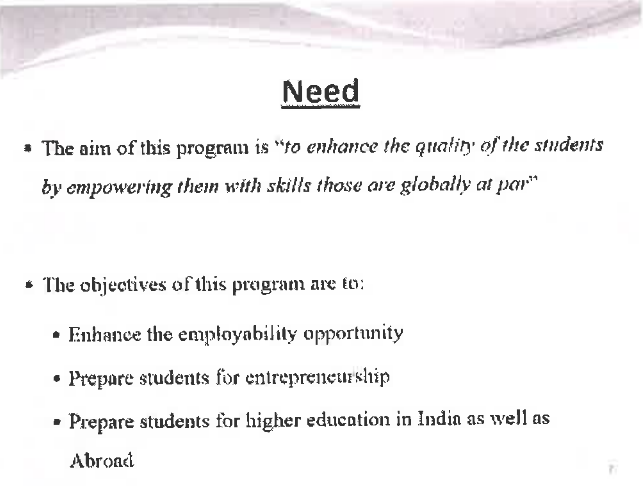
Vision

"To enhance quality of engineering students by empowering them with skills that are globally at par"



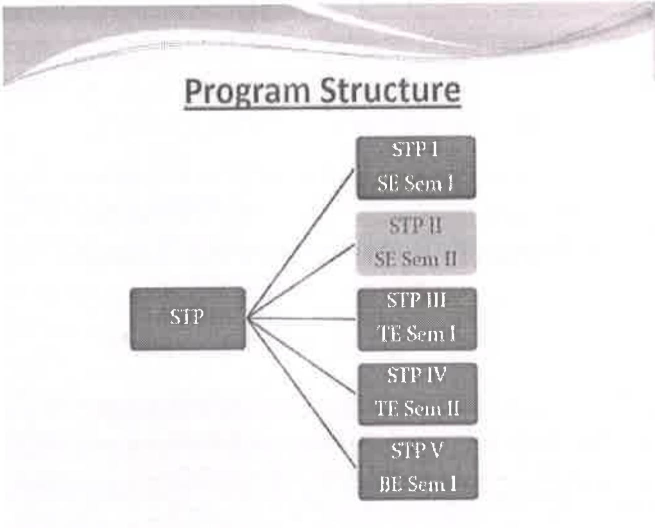
Need

- Worldwide, advancement in technology has revolutionized the scope of engineering education and redefined expectations from engineering graduates.
- At STES, a need was identified to start an innovative "*Student Training Program*" that would help the students to build a personality equipped with exquisite technical and non-technical skills.



Need

- The aim of this program is "*to enhance the quality of the students by empowering them with skills those are globally at par*"
- The objectives of this program are to:
  - Enhance the employability opportunity
  - Prepare students for entrepreneurship
  - Prepare students for higher education in India as well as Abroad



Program Structure

STP

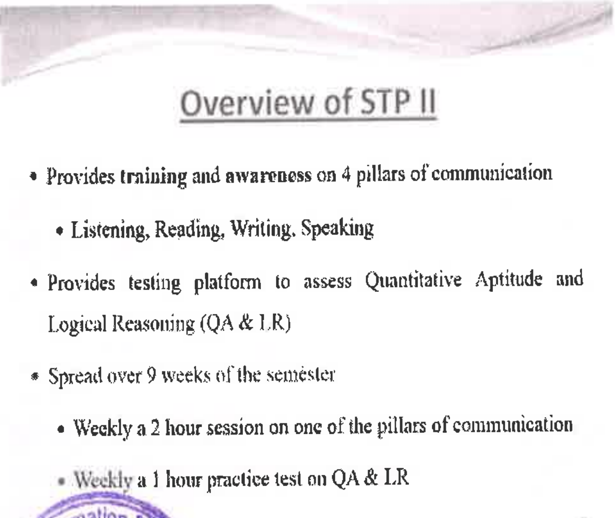
STP I
SE Sem I

STP II
SE Sem II

STP III
TE Sem I

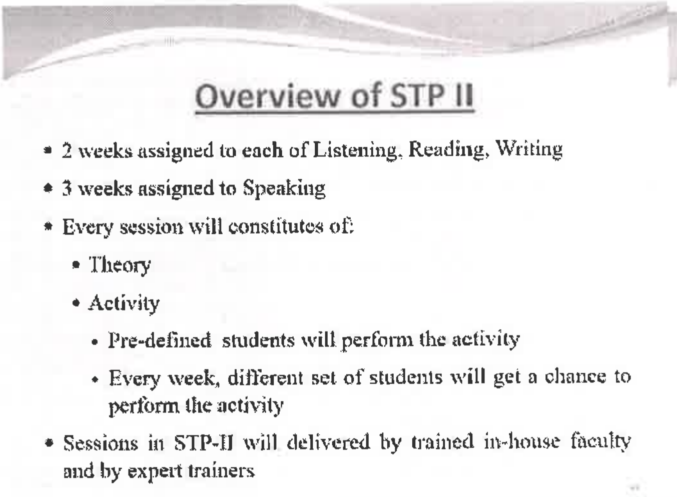
STP IV
TE Sem II

STP V
BE Sem I



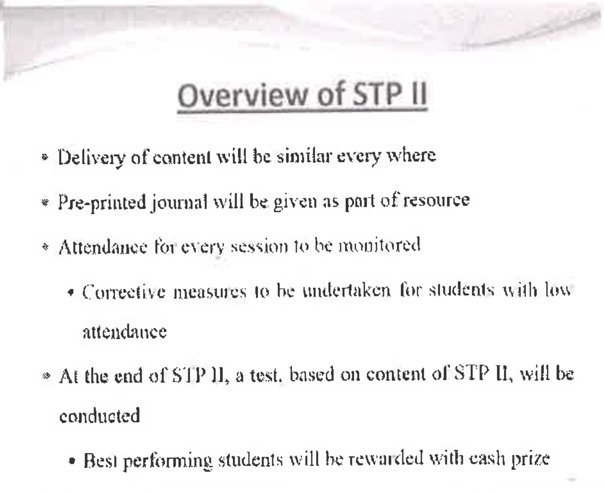
Overview of STP II

- Provides training and awareness on 4 pillars of communication
  - Listening, Reading, Writing, Speaking
- Provides testing platform to assess Quantitative Aptitude and Logical Reasoning (QA & LR)
- Spread over 9 weeks of the semester
  - Weekly a 2 hour session on one of the pillars of communication
  - Weekly a 1 hour practice test on QA & LR



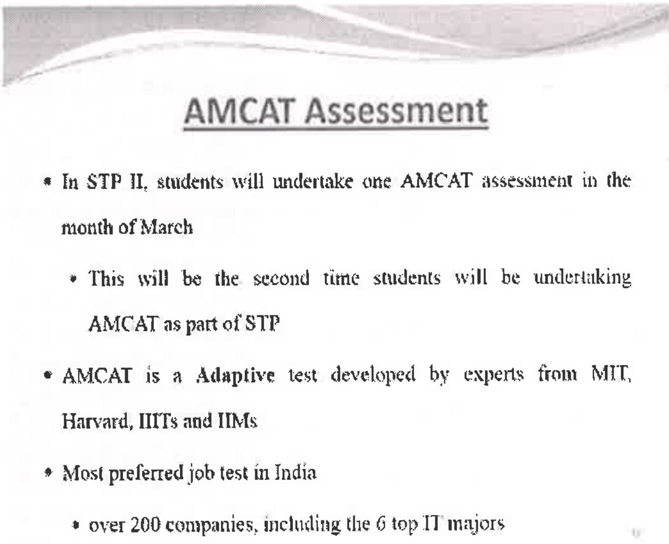
Overview of STP II

- 2 weeks assigned to each of Listening, Reading, Writing
- 3 weeks assigned to Speaking
- Every session will constitutes of:
  - Theory
  - Activity
    - Pre-defined students will perform the activity
    - Every week, different set of students will get a chance to perform the activity
- Sessions in STP-II will delivered by trained in-house faculty and by expert trainers



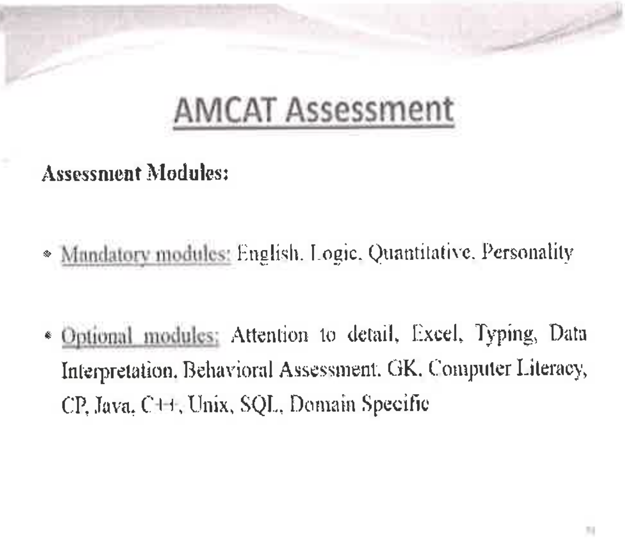
Overview of STP II

- Delivery of content will be similar every where
- Pre-printed journal will be given as part of resource
- Attendance for every session to be monitored
  - Corrective measures to be undertaken for students with low attendance
- At the end of STP II, a test, based on content of STP II, will be conducted
  - Best performing students will be rewarded with cash prize



AMCAT Assessment

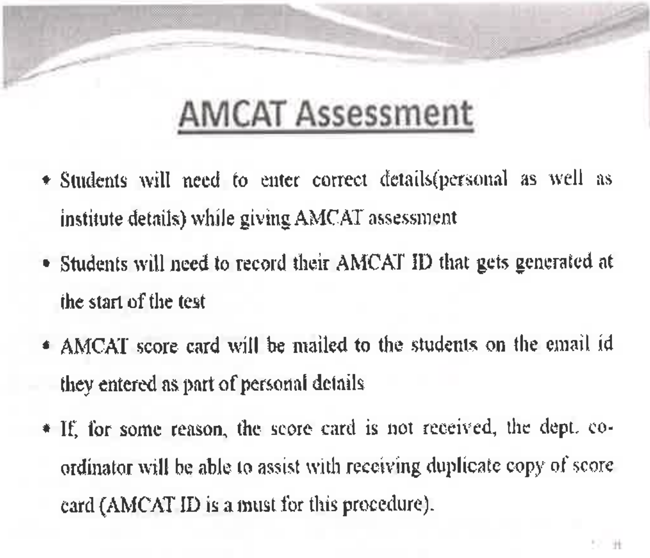
- In STP II, students will undertake one AMCAT assessment in the month of March
  - This will be the second time students will be undertaking AMCAT as part of STP
- AMCAT is a **Adaptive** test developed by experts from MIT, Harvard, IIITs and IIMs
- Most preferred job test in India
  - over 200 companies, including the 6 top IT majors



AMCAT Assessment

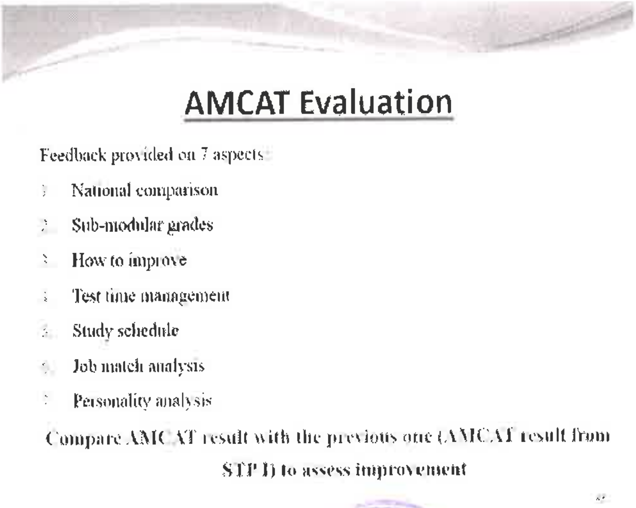
Assessment Modules:

- Mandatory modules: English, Logic, Quantitative, Personality
- Optional modules: Attention to detail, Excel, Typing, Data Interpretation, Behavioral Assessment, GK, Computer Literacy, CP, Java, C++, Unix, SQL, Domain Specific



AMCAT Assessment

- Students will need to enter correct details(personal as well as institute details) while giving AMCAT assessment
- Students will need to record their AMCAT ID that gets generated at the start of the test
- AMCAT score card will be mailed to the students on the email id they entered as part of personal details
- If, for some reason, the score card is not received, the dept. co-ordinator will be able to assist with receiving duplicate copy of score card (AMCAT ID is a must for this procedure).



AMCAT Evaluation

Feedback provided on 7 aspects

1. National comparison
2. Sub-modular grades
3. How to improve
4. Test time management
5. Study schedule
6. Job match analysis
7. Personality analysis

Compare AMCAT result with the previous one (AMCAT result from STP I) to assess improvement

2 Weeks Yoga Sadhana Report AY 2021-22

Vision and Mission Statement: Institute

उत्तमपुरूषान् उत्तमाभियंतृन् निर्मातुं कटिबद्धा: वयम् ।

We are committed to produce not only good engineers but good human beings, also.

Mission

The Fire Within Yoga is more than just a place to take a class. Our mission is to empower students on and off the mat. We are honored to offer a space for you to tap into. Our practice is rooted in gratitude, and focused on building strength, balance, and flexibility through a challenging and energizing Yoga practice. By inspiring growth in the mind, body, and spirit, I believe we can create powerful good in the world.

Vision and Mission of the Department

Objectives of Cell:

A few minutes of Yoga during the day can be a great way to get rid of stress that accumulates daily, in both, body and the mind. Yoga postures, Pranayama and meditation are effective techniques to release stress.For this, we are committed to:

- Asanas starting with warming up and stretching .
- a series of Padmasanas, Sukhasan, Tadasana, BhujangAsana and ending with Shavasana.
- Exercises for relieving stress, reducing joint pain and enhancing the flexibility of the back.

.

Long Term Goals

- The benefits on your physical body
- The benefits on your spirit
- The benefits on your daily mindfulness

Short term Goals:

- To enable the student to have good health.
- To practice mental hygiene.
- To possess emotional stability.
- To integrate moral values.
- To attain higher level of consciousness.

TITLE: STP -3: STUDENT TRANING PROGRAMME FOR ACADEMIC YEAR 2021-22

Date :18 Aug 2021 to 22Sep 2021

Day : Wednesday

Venue : online mode (Microsoft teams)

Time : 9.00am-10.30am

Staff Coordinator : **Prof.Anuradha P Kulkarni**

Event Conducted Under: Department of **Information Technology**

Activity Type :Student Training Program

Target Group :All TE Students of Information Technology Department

Brief about the event:

STP-3 stands for the "**Student Training Program**" and this module is useful for aptitude questions of FDS, DSA and OOP subjects for the TE students. STP-3 consists of different modules of FDS, DSA and OOP subjects for each subject 2 modules.

Total 6 different modules.

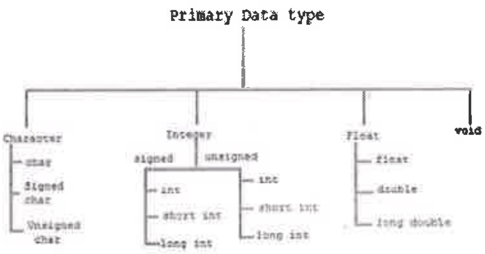
Contents

- Data Types in C
- Operators
- Control Structures
- Arrays
- Functions and parameter passing in C
- Recursion
- Macro
- Structure
- Union

Data Types in C



Primary Data type
Character
char
Signed char
Unsigned char
Integer
signed
int
short int
long int
unsigned
int
short int
long int
Float
float
double
long double
void

Operators in C

- Operators are the special symbols which are used to indicate the type of operation.
- Operands are the data member or variables operating as per operation specified by operator.
- One expression contains set operators and operands.

MCQs

2. An integer constant in ` C ` must have
A) At least one digit
B) At least one decimal point
C) A comma along with digits
D) Digits separated by commas

MCQs

1. In a while loop the parantheses after the 'while' contains a ________
A) condition
B) statement
C) count
D) value

Department of Information Technology

TITLE: STP –IV: STUDENT TRANING PROGRAMME FOR ACADEMIC YEAR 2021-22

Date :5 Jan 2022 to 19 Jan 2022

Day : Wednesday

Venue : online mode (Microsoft teams)

Time : 9.00am-10.30am

Staff Coordinator : **Prof.Anuradha P Kulkarni**

Event Conducted Under: Department of **Information Technology**

Activity Type :Student Training Program

Target Group :All TE Students of Information Technology Department

Brief Summary about Activity:

"To enrich quality of students by empowering them in research with TECHNICAL PAPER WRITING"

1. Program to be implemented for T.E. students
2. Program to be a coordinated efforts of all the staff members working in dept.
3. Students undergone through the three search modules like Research why & how, Literature Review and Technical writing.
4. To be implemented in 6th semester.
5. Training on Technical paper writing skills

Results of the activity:

STP-4 stands for the "Student Training Program" and this module is to nurture the research among the students. Faculty member are allocated to each module. They explain students about research why and how, how to do literature review and explain technical writing.

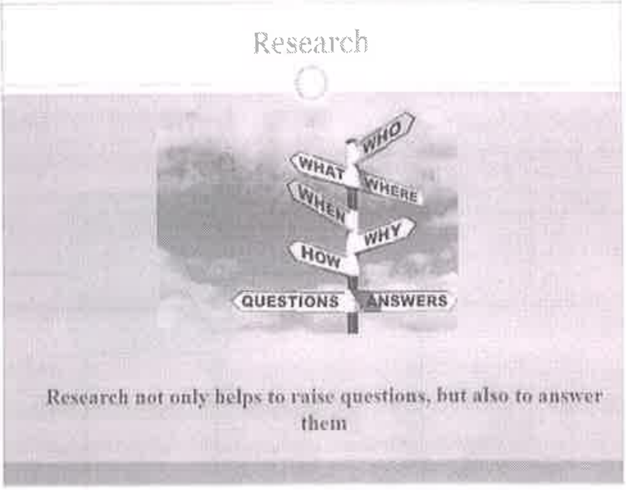
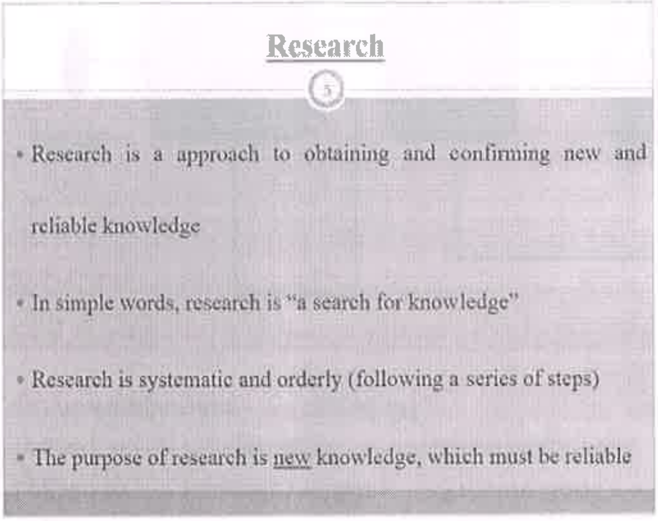
RESEARCH: WHY & HOW



Research

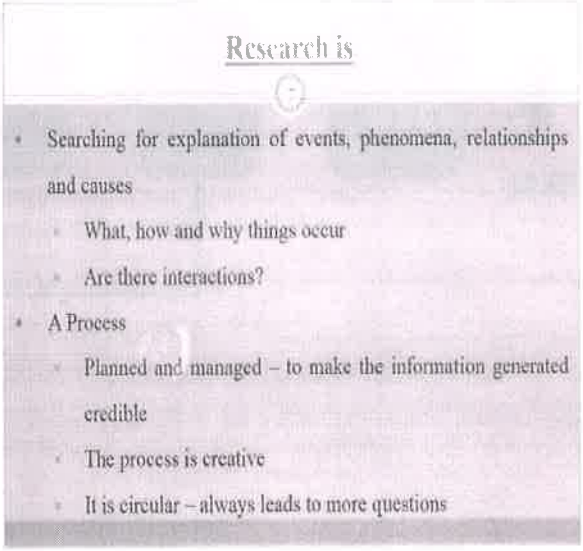
WHO
WHAT
WHERE
WHEN
WHY
HOW
QUESTIONS
ANSWERS

Research not only helps to raise questions, but also to answer them



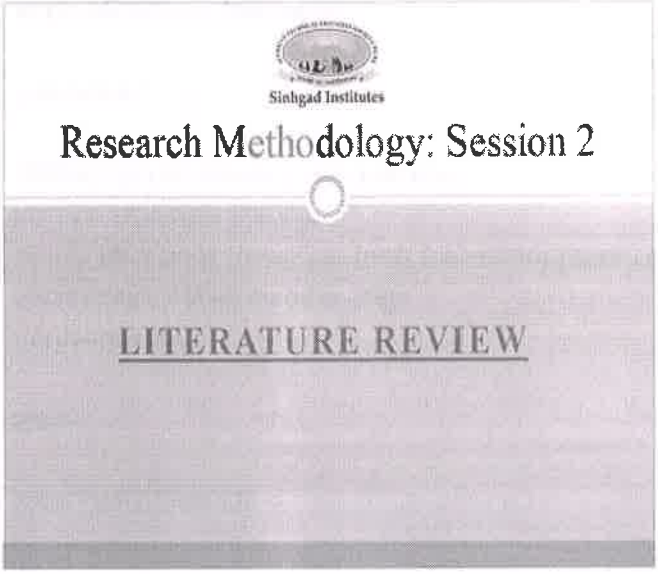
Research

- Research is a approach to obtaining and confirming new and reliable knowledge
- In simple words, research is "a search for knowledge"
- Research is systematic and orderly (following a series of steps)
- The purpose of research is new knowledge, which must be reliable



Research is

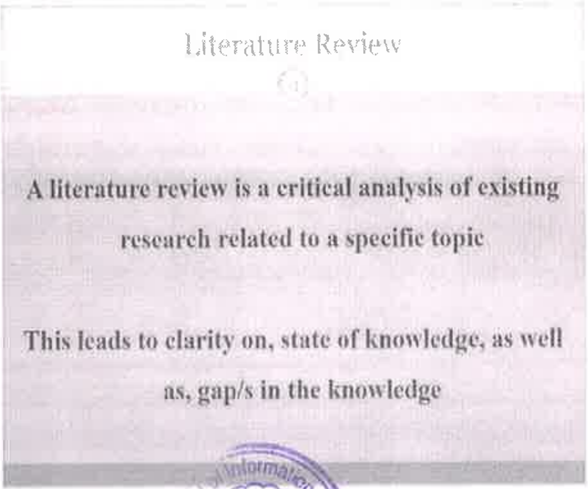
- Searching for explanation of events, phenomena, relationships and causes
  - What, how and why things occur
  - Are there interactions?
- A Process
  - Planned and managed – to make the information generated credible
  - The process is creative
  - It is circular – always leads to more questions



Sinhgad Institutes

Research Methodology: Session 2

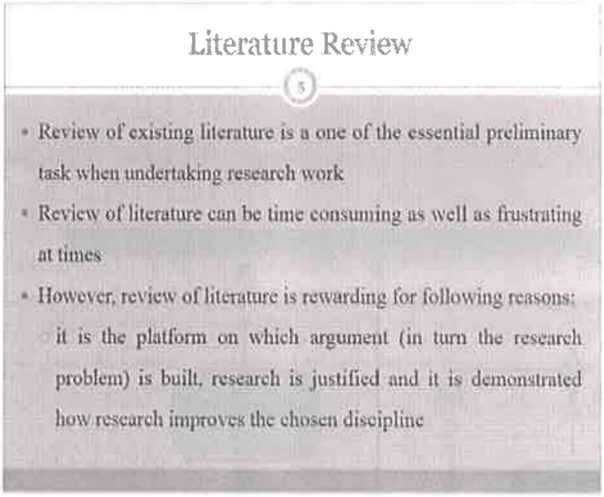
LITERATURE REVIEW



Literature Review

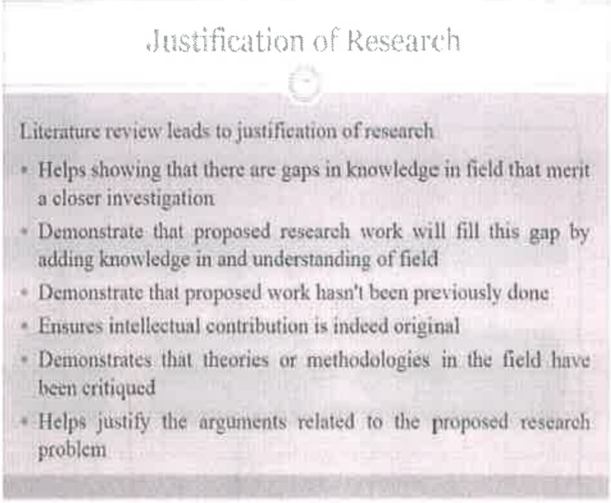
A literature review is a critical analysis of existing research related to a specific topic

This leads to clarity on, state of knowledge, as well as, gap/s in the knowledge



Literature Review

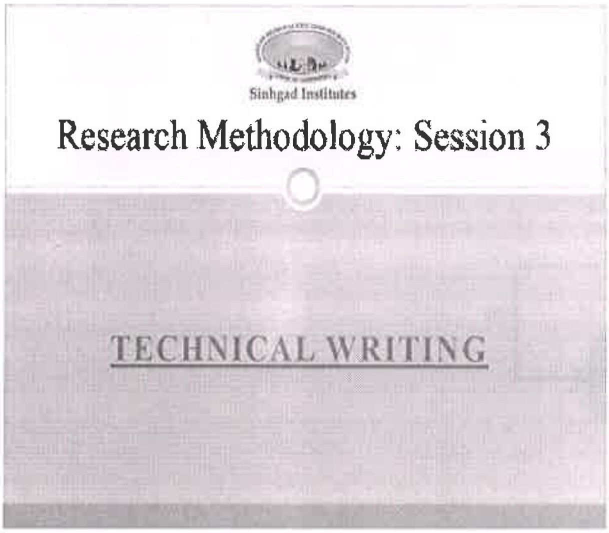
- Review of existing literature is a one of the essential preliminary task when undertaking research work
- Review of literature can be time consuming as well as frustrating at times
- However, review of literature is rewarding for following reasons:
  - it is the platform on which argument (in turn the research problem) is built, research is justified and it is demonstrated how research improves the chosen discipline



Justification of Research

Literature review leads to justification of research

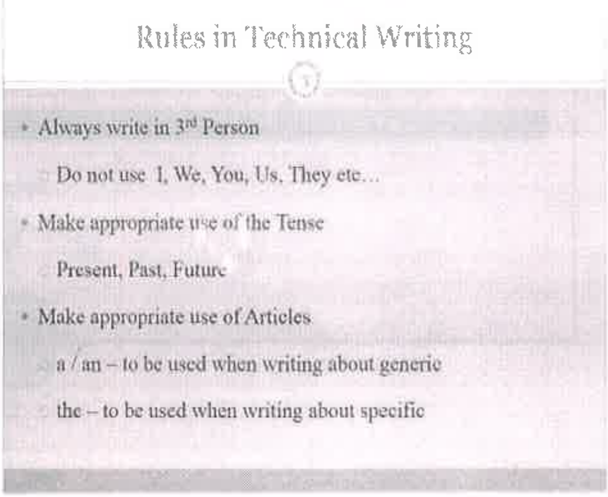
- Helps showing that there are gaps in knowledge in field that merit a closer investigation
- Demonstrate that proposed research work will fill this gap by adding knowledge in and understanding of field
- Demonstrate that proposed work hasn't been previously done
- Ensures intellectual contribution is indeed original
- Demonstrates that theories or methodologies in the field have been critiqued
- Helps justify the arguments related to the proposed research problem



Sinhgad Institutes

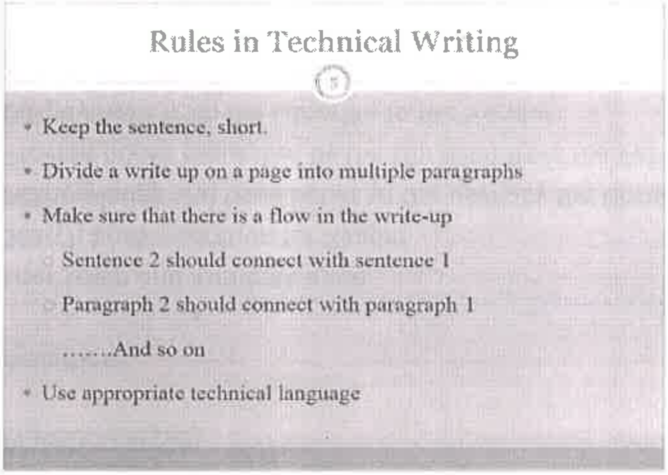
Research Methodology: Session 3

TECHNICAL WRITING



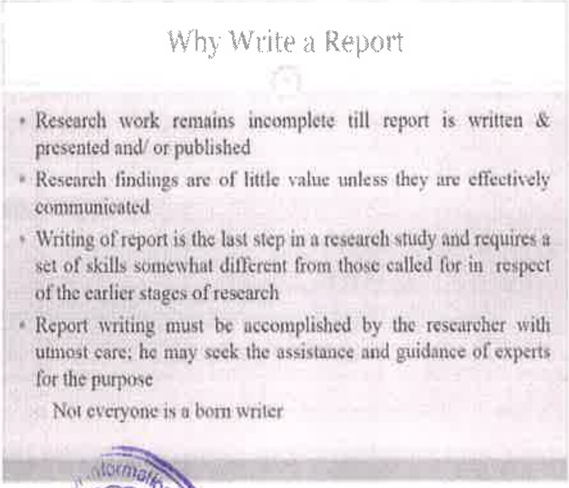
Rules in Technical Writing

- Always write in 3rd Person
  - Do not use I, We, You, Us, They etc…
- Make appropriate use of the Tense
  - Present, Past, Future
- Make appropriate use of Articles
  - a / an – to be used when writing about generic
  - the – to be used when writing about specific



Rules in Technical Writing

- Keep the sentence, short.
- Divide a write up on a page into multiple paragraphs
- Make sure that there is a flow in the write-up
  - Sentence 2 should connect with sentence 1
  - Paragraph 2 should connect with paragraph 1
  - ……And so on
- Use appropriate technical language



Why Write a Report

- Research work remains incomplete till report is written & presented and/ or published
- Research findings are of little value unless they are effectively communicated
- Writing of report is the last step in a research study and requires a set of skills somewhat different from those called for in respect of the earlier stages of research
- Report writing must be accomplished by the researcher with utmost care; he may seek the assistance and guidance of experts for the purpose
  - Not everyone is a born writer
