Good

Nice

Teacher have to communicate with student regarding different activities they have to motivate student. We have to increases Communication between student and teacher. While teaching teacher have to improve their way of teaching. Some intersting ways and things can be added so that student can understand not only theoretically for exam but also for knowledge which they can implement. Teaching way is the reason student not attending the lecturers. College have to provide more activites and programs. College have to provide different intership program. Different activities by which student can make different innovative project. Different activities which help in getting placement is the most important.

No thankyou

Not at all ,..... Our all teachers/guardian staff are very well n good....thanku an I hope All teachers will keep inspiring at last....

Faculties should change their attitude towards students

One of the worst institute in my opinion, you may also call it copy center. Almost everyone has cheats with them and nobody does anything about it, only rarely they removed from the class or is any action taken against them. On top of that placement cell is just a so unfair that only TPO'a favourite students can sit for placement multiple times even after getting selected in one company but we can't.

Department does not supports regular students in compare of irregular & external students

N/A

It need some Improvement.

Only academic development is not compulsory ,there must be some sort of activities, some sort of programs, some sort of extra caricature activities

Teachers use the LCD projector a lot for the explanation about the subjects , and most of the time they skip the explanation part and we only have to read that things , I personally want that teachers should write on green board with chalk to interact with the students very strongly , they should provide notes of every subjects in class itself ,and I think all students needs this !! Please 🙏 take a look on this , it's my humble request !! The LCD projector is used for our visualisation of the concept of subject , like any figure or diagram , by looking at we will be able to understand the concept very easily !! Please make changes in this field !! Over all , the teachers are too good and I get connect with them as a child and they are like my parents !! Also the are very good in teaching 🙏 thankyou for reading my comment 🙏

Geat teaching

Good Teaching

Everything is Good

All well

Institute needs to improve the quality teaching and interaction with the students as well as should promote students to participate in other activities than syllabus and also arrange programs for enjoyment

Not satisfied

...

Thank you

A Very Third class college with a poor teaching staff

The experiance of learning and growing was really great in this Institute. This institute is blessed with such a great environment that helps is cope with our stress.

Use digital board for teaching

Teachers are good

Lab infrastructure and sports faculty must improve. Students must be able to use the readily available facilities at ease without any restrictions.

Okay but students are pressurized and feel burdened with too much of assignments and because of which there is lack of study time . students are frustrated and exhausted to the fullest as the campus is already so tiring and on top of that teachers pressurize students for assignments and complitions . teachers should consider students point of view and health issues

Arrange industrial visit to gain more knowledge about current industrial project

In 45 days before insem exam only 2 unit covered by teachers In next month before endsem exam approximately 40days 4unit covered by teachers. now u understand how they teach in classroom

Mr. Farendra ghodichor sir And Mrs. Anuradha Kulkarni mam are the only two faculties who promote practical learning, others are more into teach and leave thing.

Please allocate some teaching staff for sports as many students need it

Poor Placements & Job opportunitys for electrical branch

The ratio of teachers compared to students is very low it should be improved and they should introduce some more activities apart from studies for students to learn and grow

Need to improve the infrastructure of the college and also improvement needed in teaching quality

Speed of teaching regarding cover a syllabus

No

The teachers in our institute are really bad. Sometimes it feels like they even not have just year experience. Some teachers are good at all but some are just nothing.

Great Teachers and Institute also.

Excellent teaching

No comments

No all teachers are learning very well

More practical approach could be considered.

Industrial visit are less

--

Because of other few students who misbehave in class, the lectures where skipped, the teacher used to say that "I have have completed the syllabus rest remains on you do it by yoursself" , or some times few teachers are not able to teache the subject properly, I dont konw if the are intervied before sending for teaching students, and some say that the topic is easy just do it by yourself. I think on the start of the TE institute said that we will seprate weak student and good students but they didn't , if this would have done it would be very very nice for those student whoes wants to study.

Teachers and mentors including HOD's need to be open minded and talkative in a good manner. They should communicate with us about what we really and truly want to learn..Also, they should be concerned more about our desired career subjective and our internships in the particular fields not the sppu syllabus completion irrespective of our actual need. Instead of making us print all the manuals and code prints which are literally useless in every means, teachers should give us assignments based on the concepts and receive softcopies of lab manuals and print codes.

Actually,all teachers are not bad at teaching and interaction.But some teachers make the subject hard while teaching which is actually easy , we even don't understand that what they want to say

It was amazing Teachers.

Good teaching

These collage are very bad condition because, here external admission are provided.so all regular students are losses.for all regular student not gives 100 % feedback to all teachers.

No comments

Need to improve chem and bxe faculties

Teacher have very bad behaviour and they feel they are god in subject.they always laugh on student for students weakness and always misbehaving

All Is Well 😊
