Vision and Mission of Institute

VISION

उत्तमपुरुषान् उत्तमाभियंतृन् निर्मातुं कटीबध्दाः वयम् |

We are committed to produce not only good engineers but good human beings, also.

MISSION

Holistic development of students and teachers is what we believe in and work for. We strive to achieve this by imbibing a unique value system, transparent work culture, excellent academic and physical environment conducive to learning, creativity & technology transfer. Our mandate is to generate, preserve and share knowledge for developing a vibrant Society.

Vision and Mission of the Department

VISION

The Department of Electronics & Telecommunication Engineering is committed to cultivate a path of delivering distinctive high quality education, fostering research, creativity and innovation to gratify the proficient requirements of forthcoming / staple industry.

MISSION

M1: The Department of Electronics & Telecommunication Engineering in partnership with all stake holders will harness talent, potential for application based indigenous product development in future.

M2: Our endeavour is to provide encouraging environment for life skill development of students while exercising effective learning strategies.

M3: We inculcate unique value system based on excellent academics in project based learning among students to explore and solve problems and challenges of real world applications.

Short Term Goals

- To increase the count of university rankers

- To maintain 90% and above results with maximum no. of distinctions.

- To inculcate professional behavior in students through seminars, mock interviews, etc

- To develop research-oriented work culture among faculty and students.

- To initiate relevant value-addition programs and certifications for improving employability.

- To build strong alliances that brings the know-how of the business community to complete the training of students through projects.

- To encourage faculty by creating opportunities of higher education.

Long Term Goals

- To achieve 100% placements through Campus Interviews

- To create better entrepreneurs in the IT Sector

- To establish and strengthen Industry-Institute interaction and be industry solution providers.

- To establish a state-of-the-art R&D institute for project-based research creating opportunities for faculty to be a resource.

- To make the department self-reliant through revenue generation by taking up projects from Industry

- To strive hard to meet the social, ecological, and ethical needs of the nation.

Program Educational Objectives (PEOs)

PEO1	To prepare globally competent graduates having strong fundamentals and domain Knowledge to provide effective solutions for engineering problems.
PEO2	To prepare the graduates to work as committed professionals with strong professional ethics and values, a sense of responsibility, understanding of legal, safety, health, societal, cultural, and environmental issues
PEO3	To prepare committed and motivated graduates with a research attitude, lifelong Learning, investigative approach, and multidisciplinary thinking.
PEO4	To prepare the graduates with strong managerial and communication skills to work Effectively as individuals as well as in teams.

Program Specific Outcomes (PSOs)

PSO1	Professional Skills-The ability to understand, analyze and develop computer programs in the areas related to algorithms, system software, multimedia, web design, big data analytics, and networking for efficient design of computer-based systems of varying.
PSO2	Problem-Solving Skills- The ability to apply standard practices and strategies in software project development using open-ended programming environments to deliver a quality product for business success.
PSO3	Successful Career and Entrepreneurship- The ability to employ modern computer languages, environments, and platforms in creating innovative career paths to be an entrepreneur and a zest for higher studies.

Program Outcomes (POs)		
PO 1	Engineering Knowledge	Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
PO 2	Problem Analysis	Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
PO 3	Design/Development of Solutions	Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
PO 4	Conduct Investigations of Complex Problems:	Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
PO 5	Modern Tool Usage:	Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
PO 6	The Engineer and Society:	Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice
PO 7	Environment and Sustainability:	Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
PO8	Ethics:	Apply ethical principles and commit to professional ethics and Responsibilities and norms of the engineering practice.
PO9	Individual and Team Work:	Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
PO 10	Communication:	Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
PO 11	Project Management and Finance:	Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
PO 12	Life-Long Learning:	Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change

5) **Acknowledgement**

All Staff members of Computer Engineering Department have taken efforts in this Freshers Party Function for the Batch 2024. However, it would not have been possible without the kind support of respected honorable Principal Dr. S D Babar, and kind help of HOD Dr. S R Patil. I would like to extend my sincere thanks to all of them.

I am highly indebted to all coordinators and committee members for their guidance and constant supervision as well as for providing necessary information and resources regarding the Freshers Party Function & also for their support in completing the event. I would like to express my special gratitude and thanks to all faculty members and students of SE & TE and all final year students for giving such attention and time to made this event grand success. Finally, but not the least I thanks to all teaching and non-teaching staff of Dept. to support and attend the same.
